ANNIE

Reminiscent of the Wasp Waist figures of the 1940's, Annie's smaller top and waist are complimented by slightly accentuated hips giving her the classic hourglass figure. The conical leg gives Annie a modern twist. She is fitted with articulated arms and handsets in three styles to easily change her expression. A custom stylized head sits on a joystick-type fitting, allowing you to turn and tilt her head into endless positions, which allows for numerous staging options... great for creating excitement and interest! Annie is available with three leg positions including a sitting position, she comes in a variety of custom finishes, and is perfect for hats, handbags and accessory presentations.

Foot Fittings
Available with other finishes

BERNSTEIN DISPLAY

The image features two golden, stylized mannequins in the foreground, positioned against a dark background. The mannequin on the left is slightly behind and to the side of the one on the right. Above them, the words "BERNSTEIN" and "DISPLAY" are written in large, bold, black, three-dimensional block letters. The letters are illuminated from behind, creating a bright, glowing effect that casts a soft light on the surrounding wall and the mannequins. The overall atmosphere is artistic and museum-like.
